## WELCOME TO UV PLYLAM PVT. LTD.!

At **UV Plylam Pvt Ltd**, we are dedicated to delivering innovative solutions that drive progress and efficiency. Founded in 2009, we have grown to become the most successful and fastest growing brand in the plywood industry. We are honoured to have been recognized by **The Times of India** as the **Most Popular Brand for two consecutive years, 2022 and 2023**. This accolade reflects our unwavering dedication to excellence, customer satisfaction, and industry leadership.

Our commitment to customer satisfaction, cutting-edge technology, and sustainable practices sets us apart. Our team of dedicated professionals works tirelessly to develop high-quality products and services that meet the evolving needs of our clients.

At **UV Plylam Pvt Ltd**, our commitment to innovation and quality has driven our success in the industry. We are thrilled to announce the next exciting chapter in our journey with the launch of our highly anticipated range of decorative **Acrylic Laminates**.

Following the success of our renowned plywood brands—**Youv Club, Youv Plus, Youv Eco**, and **Youv Pro**—we are proud to unveil our most awaited decorative collection. This new range features the **widest selection of colors and patterns**, designed to meet the diverse aesthetic needs of our customers.

As we embark on this transformative phase, we envision ourselves evolving into a premier Decorative Company. Our focus remains on **precision, reliability, and innovation**, ensuring that each product meets the highest standards of excellence. Our approach is rooted in **collaborative partnerships** and a **customer-first mindset**, aiming to deliver solutions that truly resonate with our clients.

At **UV Plylam Pvt Ltd**, we believe in transforming challenges into opportunities and contributing positively to our community. Join us on our journey as we continue to lead the industry forward and make a difference.

Thank you for your interest in **UV Plylam Pvt Ltd**. For more information, please visit [www.youvply.com](http://www.youvply.com) or contact us at [sales@youvply.com](mailto:sales@youvply.com).

## GENERAL INSTRUCTIONS

- YouV Acrylic sheets are designed for interior, vertical application, however horizontal application can be done at low traffic areas.
- Cleaning should be done with water and water based mild cleaning agents and wiped with a soft, non-abrasive microfiber fabric.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution.
- Do not use thinner and alcohol based solvents on the surface of the acrylic laminates for cleaning.
- Do not place hot cookware directly on the surface of the laminate.
- Although the polymer is resistant to heat upto 30°C, prolonged exposure to temperatures above 30°C may cause damage below the surface thus resulting in an unpleasant stain or patch.
- Avoid use in areas exposed to intense direct sunlight such as large unshaded windows.
- In case of big size panels, due to thermal expansion of the material bubble formation is possible, 1mm gap of is advisable to compensate the thermal expansion of the material due to rise in room temperatures.
- PE protective masking must be removed within 7-10 days after the application.

## APPLICATIONS

Kitchen Shutters | Wardrobes | Tables | Doors | Shelves | Cabinets | Trolleys Bathroom | Furniture Wall Lining and Vertical Surfaces | Office Spaces | Wall Cladding & Partition | TV Units

## APPLICATION INSTRUCTIONS

- Make sure that the surface of the substrate (Plywood/ MDF/HDF/Particle Board etc) is clean and dust free as well as oil free.
- Apply adhesive evenly on both the substrate and the back of the YouV Acrylic Laminate.
- Before pressing the sheet on the substrate give some drying time for the adhesive. It ranges from 10 to 15 minutes depending upon the climatic conditions. Drier the weather lesser is the drying time.
- Once pressing is done any possible air pockets need to be removed using soft rollers and moving from the centre towards the edges, This will remove any air bubble between the laminate and the substrate.
- Apply uniform weight on the laminated board for 12-18 hours.
- The most common technical problems faced in the application of acrylic laminates are Bubble Formation and decoloring / Yellow patches on Surface. Thankfully these problems can be avoided in YouV Acrylic laminates by taking care of few small things as mentioned:

BUBBLES FORMATION	
Causes	Solution
Moisture content on Substrate / Atmospheric Humidity	Use best quality Calibrated Substrate and make sure it is free of any moisture
Due to thermal Expansion bubbles can form after few weeks of installation.	This can be avoided by keeping 1mm expansion gaps between two big size panels.
Lack of Bonding / Curing time	Laminates board has to be subjected under even load for at least12-18 hours after pressing
YELLOW PATCHES / FADING	
Causes	Solution
Exposure to direct sunlight	Avoid application in areas with intense direct sunlight
Reaction of adhesive with chemicals on substrate surface	Use best quality calibrated substrate with no chemicals on surface/Clean the surface thoroughly before applying adhesive

Most Popular Brand 2022 by Time of India

Eco Friendly Plywood Brand of The Year 2023

Most Popular Brand 2023 by Time of India

## AWARDS WE HAVE GOT

Receiving an award is definitely a humbling experience. And we feel absolute honour to have bagged Times Business Awards, Hyderabad 2022 & 2023 and also Best Eco friendly plywood in 2023. Yes, Youv Ply has been recognised for being the most popular brand in plywood. This recognition reflects our commitment to supply best quality products and making a significant impact in the industry

# INFORMATION

## No Guarantee in any circumstances

Like crack, bubble, color fade and color variation.  
Please check material when delivered.

- No guarantee & no exchange in any circumstances.
- There can be color variation in material from different batches.
- It is advised to use same batch material to avoid color variations.
- Actual colors of the laminate sheet may vary from this brochure.

Please open the roll immediately.  
Do not pressurize while opening roll.

Shake it well and lightly spray on the surface.

Wipe the surface clean using a light circular motion.

**Note :** Youv Ply warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any manufacturing defect Youv Ply is liable for product cost only.

## Youv Ply is not liable for any complains in the following cases:

- Colour variation from batch-to-batch production.
- Improper handling of product or any transportation damage.
- Improper installation of product.
- Outdoor applications.
- Exposure of laminate sheet to direct sunlight.

## We are liable only on acrylic products not on plywood, glue and other material for installation.

- It is advisable to check the batch number to avoid colour variation.
- Youv Ply is not liable for any complaints if the product is not properly handled or installed. Maintain according to given guidelines.
